

Concept Systems, Inc. to Present and Engage at Rockwell Automation Fair 2024

Albany, OR – September 2024 – Concept Systems, Inc., a Gold Level System Integrator, is excited to announce its sponsorship at the **Rockwell Automation Fair 2024** in Anaheim, California. Our team of automation experts will be on hand to engage with partners, customers, and industry peers throughout the event.

As part of the event, **Evan Gonnerman**, Portfolio Manager and leader of the [evriiRobot](#) initiative will deliver a presentation titled **PS43 – Enhancing Automation with Configurable Operator Consoles Using FactoryTalk Optix™**. Evan will explore the development of the evriiRobot platform and how it is revolutionizing scalable and customizable automation workcells. A key feature of this innovation is the use of **FactoryTalk® Optix™**, which enables the dynamic generation of operator consoles tailored to meet diverse operational requirements. This strategic approach enhances product quality, reduces overhead costs, and supports the modernization of automation software, positioning companies for long-term success.

Attendees are invited to attend Evan's presentation to learn how these advancements can benefit their automation processes or reach out to our team to connect while at the conference.

Concept Systems is a long-standing Gold Level System Integrator with decades of expertise in automation solutions across industries. Our team looks forward to connecting with new and existing partners throughout the week to discuss industry trends, challenges, and opportunities for collaboration.
