## **Rittal Unveils the VX Nema 4/4X Double Door Free Standing Enclosure at Rockwell Automation Fair 2024 Anaheim, California – November 18-21, 2024**

Rittal is excited to showcase its latest innovation, the VX DD enclosure, at the Rockwell Automation Fair 2024 in Anaheim. Partnering with Eplan, Rittal continues to push the boundaries of industrial automation and engineering under the theme of this year's show, "Make It Matter." Together, Rittal and Eplan empower the entire value chain and connect ecosystems across operations for optimal efficiency.

The VX DD enclosure, made in the U.S.A., offers UL/cUL Type 4/4X protection, making it a versatile solution for various industries. Available in five standard sizes and crafted from carbon steel or stainless steel, the enclosure features a modern hybrid design that ensures superior durability and adaptability.

Key features include a removable center mullion, non-disconnect capability, and a disconnect module for easy conversion. The larger, to install full size mounting panel., combined with the enclosure's lighter weight, simplifies handling and installation. The VX DD enclosure is also compatible with Rittal system accessories, providing unmatched flexibility for freestanding or floor-mounted applications.

Michael Milam, VP of Industrial Automation at Rittal, shared his excitement: *"The VX DD is a game-changer for industries requiring enclosure solutions that are both adaptable and long-lasting. Its design and features reflect our goal to help businesses scale and operate with ease."*

With Rittal's industry-leading enclosure technology and Eplan's advanced software solutions, businesses can streamline their design and manufacturing processes, making every aspect of their operations matter. Visit us at booth A24 to learn more about how Rittal and Eplan can empower your value chain and connect ecosystems.

### About Rittal LLC

Founded in 1982, Rittal LLC is the fully owned US subsidiary of Rittal GmbH & Co. KG, and is headquartered in Schaumburg, IL. With a main production facility in Urbana, OH, a dedicated Modification Center in Houston, TX, and logistic hubs in Urbana, OH; Springfield, OH; Houston, TX; Sparks, NV; and Atlanta, GA, Rittal LLC is fully committed to providing the United States with quality enclosure solutions.

Founded in 1961 in Germany, Rittal is a global manufacturer of industrial and IT enclosures, racks, and accessories, including cooling solutions and power management systems for industrial, data center, outdoor, and hybrid applications. As the largest enclosure manufacturer in the world, Rittal provides quality solutions for practically any industrial or IT infrastructure application. Rittal is part of the owner-operated Friedhelm Loh Group along with Eplan.

### About Eplan

Eplan is a global leader in software and service solutions for electrical, automation, and mechatronic engineering. Specializing in cutting-edge design software for machine and panel builders, Eplan supports 68,000 customers worldwide via standardized and customized interfaces to ERP and PLM/PDM systems. As part of the Friedhelm Loh Group along with Rittal, Eplan is dedicated to pushing efficiency, integration, and automation in engineering forward. Learn more at [eplanusa.com](http://eplanusa.com).
