New Product Spotlight

PowerFlex® 535 Low Voltage Drive

Expand what's possible with the new PowerFlex® 535 drive with expanded power ratings up to 37 kW (50 Hp) and new IP66/NEMA 4X enclosure options. More power, more application flexibility and more ways to standardize machine designs. Smart setup, simplified commissioning, predictive insights and Automatic Device Configuration help you build faster, reduce downtime and keep operations running smoothly.

Available for customers first half of calendar year 2027
